 - Specialist advice and diagnostics (outpatient services and planned operations)
 - Urgent care
 - Primary care
- 3.4. A first phase public consultation on critical care, stroke care, reducing hospital admissions, and maternity services is scheduled to begin in early 2017.
- 3.5. A copy of the Summary Document is appended to the report but Members are asked to note that the full Sustainability and Transformation Plan is currently a draft under development. An updated version is to be made available by February 2017. Local public engagement events will continue and will be promoted via each partner organisation's website and other communication channels.
