

Supplement for

COUNCIL - WEDNESDAY, 3RD DECEMBER, 2025

Agenda No	Item
-----------	------

12.	<u>Motion A: Protecting Fire Services in West Oxfordshire</u> (Pages 5 - 6)
-----	---

Amendment proposed by Cllr Alaric Smith

Proposed by: Councillor Liam Walker
Seconded by: Councillor Nick Leverton

Council notes:

1. That Oxfordshire County Council is currently considering proposals that include the potential closure of *two* on-call fire stations within West Oxfordshire: Eynsham Fire Station and Woodstock Fire Station.
2. That both stations provide vital emergency response capability for their communities and surrounding areas, and their crews contribute significantly to safeguarding residents, businesses, heritage assets, and critical transport infrastructure.
3. That West Oxfordshire is a growing district, with new housing developments, increased traffic volumes, and expanding commercial activity—all of which place greater, not lesser, demand on local emergency response capacity.
4. That the loss of either station could risk slower response times, reduced local resilience, and diminished fire cover for incidents such as road traffic collisions, flooding, and property fires.

Council believes:

1. That maintaining strong, localised fire and rescue provision is essential for community safety and public confidence.
2. That any reduction in fire cover within West Oxfordshire is unacceptable and would represent a step backwards in protecting residents, especially in rural and semi-rural areas.
3. That decisions on fire station closures must prioritise public safety above financial or administrative considerations.

Council therefore resolves to:

1. Formally oppose the proposed closure of Eynsham and Woodstock Fire Stations.
2. Ask the Council Leader write to the Oxfordshire County Council Cabinet Member for Community Wellbeing and Safety urging her to withdraw the proposals and to commit to maintaining full operational status at both stations.
3. Support local firefighters and residents in campaigning to retain emergency fire cover in West Oxfordshire.

Amendment to Motion A: Protecting Fire Services in West Oxfordshire – proposed by Councillor Alaric Smith

Words removed in ~~striketrough-text~~

Words added in **red text**

Council notes:

1. That Oxfordshire County Council is currently considering proposals that include the potential closure of *two* on-call fire stations within West Oxfordshire: Eynsham Fire Station and Woodstock Fire Station.
2. That ~~at both stations~~ **importance of** providing vital emergency response capability for their **areas served by these stations** ~~communities and surrounding areas, and their crews contribute significantly to safeguarding residents, businesses, heritage assets, and critical transport infrastructure.~~
3. That West Oxfordshire is a growing district, with new housing developments, increased traffic volumes, and expanding commercial activity—all of which place greater, not lesser, demand on local emergency response capacity.
4. That **it is important that** the loss of either station **should not lead to** ~~could risk~~ slower response times, reduced local resilience, and diminished fire cover for incidents such as road traffic collisions, flooding, and property fires.

Council believes:

1. That maintaining strong, localised fire and rescue provision is essential for community safety and public confidence.
2. That any reduction in fire cover within West Oxfordshire is unacceptable and would represent a step backwards in protecting residents, especially in rural and semi-rural areas.
3. That decisions on fire station closures must **ensure that the service is delivered in the most effective and efficient way to** prioritise public safety ~~above financial or administrative considerations.~~

Council therefore resolves to:

1. Formally oppose the proposed closure of Eynsham and Woodstock Fire Stations, **if the loss of either station will lead to slower response times, reduced local resilience, and diminished fire cover for incidents such as road traffic collisions, flooding, and property fires.**
 2. **If it is shown that the loss of either station will lead to a reduced service, ask** ~~Ask~~ the Council Leader **to** write to the Oxfordshire County Council Cabinet Member for Community Wellbeing and Safety urging her to withdraw the proposals and to commit to maintaining full operational status at both stations.
 3. Support local firefighters and residents in campaigning to retain emergency fire cover in West Oxfordshire.
-

If the amendment is passed the amended motion would read:

Council notes:

1. That Oxfordshire County Council is currently considering proposals that include the potential closure of two on-call fire stations within West Oxfordshire: Eynsham Fire Station and Woodstock Fire Station.
2. The importance of providing vital emergency response capability for the areas served by these stations.
3. That West Oxfordshire is a growing district, with new housing developments, increased traffic volumes, and expanding commercial activity—all of which place greater, not lesser, demand on local emergency response capacity.
4. That it is important that the loss of either station should not lead to slower response times, reduced local resilience, and diminished fire cover for incidents such as road traffic collisions, flooding, and property fires.

Council believes:

1. That maintaining strong, localised fire and rescue provision is essential for community safety and public confidence.
2. That any reduction in fire cover within West Oxfordshire is unacceptable and would represent a step backwards in protecting residents, especially in rural and semi-rural areas.
3. That decisions on fire station closures must ensure that the service is delivered in the most effective and efficient way to prioritise public safety.

Council therefore resolves to:

1. Formally oppose the proposed closure of Eynsham and Woodstock Fire Stations, if the loss of either station will lead to slower response times, reduced local resilience, and diminished fire cover for incidents such as road traffic collisions, flooding, and property fires
2. If it is shown that the loss of either station will lead to a reduced service, ask the Council Leader to write to the Oxfordshire County Council Cabinet Member for Community Wellbeing and Safety urging her to withdraw the proposals and to commit to maintaining full operational status at both stations.
3. Support local firefighters and residents in campaigning to retain emergency fire cover in West Oxfordshire.
