

Supplement for

COUNCIL - WEDNESDAY, 25TH MARCH, 2026

Agenda No Item

6. **Questions by Members (Pages 3 - 14)**

Written responses to Questions by Members are included.

11. **Motion D - Bring Thames Water back into public ownership Proposed by Councillor Early, Seconded by Councillor Arciszewska (Pages 15 - 16)**

An updated version of Motion D is included with changes shown.

12. **Motion E - Protecting precious habitats in West Oxfordshire Proposed by Councillor Arciszewska, seconded by Councillor Pearson (Pages 17 - 18)**

An updated version of Motion E is included with changes shown.

14. **Motion G - Policy into Action, Proposed by Councillor Michael Brooker, seconded by Councillor Ruth Smith (Pages 19 - 20)**

An updated version of Motion G is included with changes shown.

This page is intentionally left blank

Member Questions and Responses for Full Council 25 March 2026

Question	Raised By	Executive Member	Response
<p>1. Residents on Madley Park are concerned about the algae and perceived overgrowth of reeds in the balancing ponds. People wonder who manages the ponds.</p> <p>I have been in contact with a council ecologist via the Estates team, who was very helpful and will take the matter forward in due course. In the meantime, please can the Executive Member</p> <p>a) confirm whether or not site visits are regular or merely responsive and;</p> <p>b) work with the communications team to inform residents that WODC is responsible for the balancing ponds and acts to manage issues when ecologists deem necessary. That way residents will have peace of mind and will know who to contact when concerns arise.</p>	<p>Cllr Ruth Smith</p>	<p>Alaric Smith - Executive Member for Finance</p>	<p>I Thank you for your question</p> <p>I(a) The site is inspected on a monthly basis by our in house team and on an annual basis by Rospa with all recommended planned and reactive works carried out. Our grounds maintenance contractors carry out routine maintenance at the site. Our Ecology team and Flood Risk Team visit where there are management queries.</p> <p>I (b) The Assets and Ecology teams would be happy to assist our Comms team to raise awareness. For information our landscape management plans including this site and showing the extent of the Council's ownership in the Madley Park area are on our website https://www.westoxon.gov.uk/environment/climate-action/enhancing-our-natural-capital/</p>
<p>2. Data from the House of Commons Library suggests that around 10,600 households in the Witney area are not connected to the gas grid and instead rely on heating oil or LPG, leaving many rural residents particularly exposed to rising global fuel prices. Given the scale of this</p>	<p>Cllr Liam Walker</p>	<p>Andrew Prosser - Executive Member for Climate Action and Nature Recovery</p>	<p>Due to the ongoing volatility in the Middle East that is impacting on fuel prices, the Government are looking at options that would be targeted to protect</p>

<p>issue in West Oxfordshire, what assessment has the administration made of the impact of rising off-grid heating costs on residents, and will the Council advocate for targeted support such as a rural heating support payment for affected households?</p>			<p>poorer households, however no formal schemes have been announced at this point.</p> <p>We recognise that many rural households in West Oxfordshire are off the gas grid and are particularly exposed to rising oil and LPG prices. This is a real concern, especially for those at risk of fuel poverty, and we continue to monitor the impact locally.</p> <p>However, while short-term financial support can help, it does not address the root cause of high and volatile heating costs. The Council's focus is on supporting residents to reduce their energy use and reliance on fossil fuels.</p> <p>We are promoting and supporting services such as <i>Better Housing Better Health</i> and schemes like the <i>Warm Homes: Local Grant and Boiler Upgrade Scheme</i>, which help households improve insulation, save energy and transition to lower-carbon heating systems.</p> <p>From both a cost-of-living and climate perspective, investment is better directed toward energy efficiency and alternatives such as heat pumps, rather than subsidising rising oil prices.</p>
<p>3. There is a growing issue across England of unadopted amenities on privately managed housing estates, where infrastructure such as</p>	<p>Cllr Liam Walker</p>	<p>Geoff Saul - Executive Member</p>	<p>Officers fully recognise the importance of this issue and the need to move away from the current</p>

<p>roads, green spaces and drainage systems are maintained by private management companies rather than being adopted by local authorities. With a number of new developments being built across West Oxfordshire, this can leave residents facing ongoing estate management charges while still paying full council tax.</p> <p>Did the District Council submit a response to the Government's recent consultation on this issue, and if so, what position did West Oxfordshire District Council take in relation to protecting residents from unfair or excessive estate management fees on new housing estates?</p>		for Housing and Social Care	<p>reliance placed on private estate management companies. Having reviewed the consultation material, Officers concluded that the most effective way of addressing this matter is to put in place a clear and robust planning policy within the Regulation 19 draft West Oxfordshire Local Plan 2043 due for publication in June 2026. A working draft policy has been prepared and has been the subject of recent discussion with Executive Members ahead of being finalised as part of the overall draft plan.</p> <p>The current situation has arisen from the policies of previous administrations to push these costs onto developers, and therefore homeowners, and minimise the additional costs for Councils. This has been in response to austerity policies introduced by previous national governments.</p>
<p>4. As Leader of West Oxfordshire District Council you also have the responsibility for emergency planning. Can the Leader therefore outline what role he personally played during the recent water outage which left thousands of homes across parts of West Oxfordshire without water for an extended period? In particular, when were you first informed of the situation and what actions did you take to coordinate the Council's response and support affected residents?</p>	Cllr Liam Walker	Andy Graham - Leader of the Council	<p>The Council offered support to help with water disruption, updating their list of vulnerable people and sharing communications from Thames Water with our residents. Incidents of this type where there is disruption to water supply are led by Thames Water, who are responsible for managing the incident and have plans in place to distribute water and identify and support vulnerable people.</p>

			<p>I was first made aware by Thames Water on the 3rd March that they were working on a burst pipe in Eynsham, and there was a risk to customer supply as the repairs were undertaken at that point, but no specific details as to the area or potential scale of the disruption were available at that point.</p> <p>Throughout the incident I regularly liaised with the Officers involved, who attend regular meetings with both Thames Water and Oxfordshire County Council, to offer both support and assistance where appropriate.</p> <p>As is the norm with these types of incidents an internal debrief is being organised, to help capture learning points, the outcomes of which will be shared with the Executive.</p> <p>I'd like to thank all Councillors and the local MP, who also played their part and supported the community during the incident.</p>
<p>5. In circumstances where a councillor facing serious allegations related to domestic abuse is allowed to rejoin a political group at West Oxfordshire District Council, does the Leader accept that this could risk sending the wrong message to residents who have experienced domestic abuse? What guidance or standards</p>	<p>Cllr Liam Walker</p>	<p>Andy Graham - Leader of the Council</p>	<p>First, I want to be clear that any allegation of domestic abuse is taken extremely seriously, and that must always be the starting point.</p> <p>In this case, the councillor brought the matter to the attention of the group immediately. It was dealt with promptly and robustly — the councillor was</p>

<p>does the Council expect political groups to follow in such situations to maintain public confidence and demonstrate support for victims?</p>			<p>suspended from the group the same day, pending the outcome of the police investigation. That is exactly how these situations should be handled.</p> <p>Upon a thorough investigation, the police found that the evidence in the case did not support the allegations. No charges were brought at any stage, and the police took no further action. The councillor cooperated fully throughout and maintained from the outset that the allegations were entirely untrue. With due process having been followed at every stage, the councillor was reinstated to the group.</p> <p>On the wider point, the Council itself does not control membership of political groups. What we do set—and enforce—are the standards of conduct expected of all councillors through our Code of Conduct. That framework exists to ensure accountability, uphold public confidence, and provide clear routes for any concerns to be properly considered.</p> <p>Supporting victims of domestic abuse remains an absolute priority for this Council. I would caution against conflating the proper handling of an individual case — in which due process was followed at every stage and the allegations were found to be</p>
---	--	--	---

			unsupported — with the Council's ongoing work on safeguarding and support.																		
6. Can the Executive member confirm the recorded number of fly-tipping incidents for the months of November 2025, December 2025, then January, February, and March (recorded so far) of this year.	Cllr Liam Walker	Lidia Arciszewska - Executive Member for Environment	<table border="1"> <thead> <tr> <th>Fly Tips</th> <th>Nov</th> <th>Dec</th> <th>Jan</th> <th>Feb</th> <th>Mar</th> </tr> </thead> <tbody> <tr> <td>24-25</td> <td>123</td> <td>89</td> <td>113</td> <td>109</td> <td>157</td> </tr> <tr> <td>25-26</td> <td>113</td> <td>119</td> <td>145</td> <td>121</td> <td>80*</td> </tr> </tbody> </table> <p>* up to 20/03/26</p> <p>The Fly Tips data suggests a more intense winter period in 2025–26 compared to 2024–25, with a slightly lower November (113 vs 123) followed by notably higher figures in December (119 vs 89), January (145 vs 113), and February (121 vs 109), indicating a strong mid-season peak; although March appears lower (80 vs 157), it is only partial and not directly comparable. In relation to the booking system introduced by Oxfordshire County Council on 14 January 2026, the figures do not show a clear correlation with increased fly tipping, as activity remained elevated in both January and February after implementation, suggesting demand stayed high and residents adapted to the system, though conclusions are limited by the lack of split January data and the incomplete March figures.</p>	Fly Tips	Nov	Dec	Jan	Feb	Mar	24-25	123	89	113	109	157	25-26	113	119	145	121	80*

7. Given over 4000 residents have now signed a petition calling for Woodford Way car park in Witney to not be built, will he now listen to residents and accept that within the allocation of 18,000 homes planned for West Oxfordshire there will already be a large	Cllr Liam Walker	Hugo Ashton - Executive Member for Planning	I can assure you that the Council is listening to local residents, many of whom are asking us to provide truly affordable housing, which is why Officers continue to work hard to design a viable scheme that strikes the right balance between providing																		

percentage of social housing, therefore this key car park should remain?			<p>social housing, that will be sustainable and provide easy access to both shops and transport links as well as providing public parking.</p> <p>The site is included in the current local plan which was approved by the previous administration. This administration is taking it forward, and the fact that the Council owns the land means that we can make a 100% social housing scheme financially viable.</p> <p>Once the scheme has been finalised, a full consultation exercise will be undertaken as part of the overall planning process.</p>																												
8. In the West Oxfordshire District Council parking strategy report the document only shows the average occupancy for the Woodford Way car park. Can the council publish the actual data that was collected in order to ascertain these averages?	Cllr Liam Walker	Lidia Arciszewska - Executive Member for Environment	<table border="1"> <thead> <tr> <th>Car Park</th> <th>Woodford Way</th> </tr> </thead> <tbody> <tr> <td>Total</td> <td>264</td> </tr> <tr> <td>6/20/2022</td> <td>234</td> </tr> <tr> <td>07/07/2022</td> <td>237</td> </tr> <tr> <td>7/13/2022</td> <td>230</td> </tr> <tr> <td>7/21/2022</td> <td>209</td> </tr> <tr> <td>7/29/2022</td> <td>166</td> </tr> <tr> <td>8/24/2022</td> <td>196</td> </tr> <tr> <td>9/27/2022</td> <td>231</td> </tr> <tr> <td>10/06/2022</td> <td>193</td> </tr> <tr> <td>11/08/2022</td> <td>221</td> </tr> <tr> <td>12/02/2022</td> <td>257</td> </tr> <tr> <td>01/05/2023</td> <td>244</td> </tr> <tr> <td>02/08/2023</td> <td>209</td> </tr> </tbody> </table>	Car Park	Woodford Way	Total	264	6/20/2022	234	07/07/2022	237	7/13/2022	230	7/21/2022	209	7/29/2022	166	8/24/2022	196	9/27/2022	231	10/06/2022	193	11/08/2022	221	12/02/2022	257	01/05/2023	244	02/08/2023	209

<p>9. Many businesses in Witney are concerned about the impact of the District Council building on the Woodford Way car park. Are you concerned about the impact this could have on the local economy and visitors to Witney?</p>	<p>Cllr Liam Walker</p>	<p>Duncan Enright - Deputy Leader of the Council and Executive Member for Economic Development</p>	<p>Many people come into the town on foot, by bicycle, or via public transport, and these journeys are completely unaffected by changes to a single parking location. The town benefits from multiple entry points and a range of parking options, meaning visitor behaviour is not dependent on a single site.</p> <p>Witney's consumers can arrive from several directions across the town's other car parks. The Marriotts Walk multistorey car park continues to provide significant capacity close to the retail core, alongside other long-stay and short-stay options around the town centre.</p> <p>Because visitors choose parking based on convenience, duration of stay and the purpose of their trip, the change is unlikely to materially affect overall footfall. Witney's strong retail offer, walkable layout and multiple access points mean the town remains resilient and attractive to both residents and visitors.</p>										

<p>10. Please can you confirm how many times the Chamber and committee rooms have been hired out for 25/26</p>	<p>Cllr Michele Mead</p>	<p>Andy Graham - Leader of the Council</p>	<p>There have been 95 bookings for all the rooms for 2025-26.</p> <p>The Council have not included any income associated with the hiring of the Chamber or Committee Rooms in the 2025-26 nor 2026-27 budget.</p>												
<p>11. I would like to request data regarding parking enforcement outcomes within the Witney town boundary. There are ongoing concerns regarding persistent parking issues on Corn Street and Welch Way, which are expected to escalate following the impending closure of Woodford Way.</p> <p>To assess the impact of the transition in enforcement authority from West Oxfordshire District Council to Oxfordshire County Council in 2021, please provide the annual number of Penalty Charge Notices (PCNs) issued for the three years immediately preceding the transfer.</p> <p>For a clear comparison of historical and current trends, please provide the data categorised by:</p> <p>* On-street PCNs (Roadside enforcement) * Off-street PCNs (Council-managed car parks)</p>	<p>Cllr Jane Doughty</p>	<p>Lidia Arciszewska - Executive Member for Environment</p>	<p>The transfer of on-street parking enforcement happened 1st April 2023.</p> <p>Please find below the penalty charge notices issued within Witney.</p> <table border="1" data-bbox="1346 715 1921 906"> <thead> <tr> <th>Financial year</th> <th>On Street (Roads)</th> <th>Off Street (car parks)</th> </tr> </thead> <tbody> <tr> <td>2020-21</td> <td>614</td> <td>523</td> </tr> <tr> <td>2021-22</td> <td>1540</td> <td>1024</td> </tr> <tr> <td>2022-23</td> <td>1488</td> <td>816</td> </tr> </tbody> </table>	Financial year	On Street (Roads)	Off Street (car parks)	2020-21	614	523	2021-22	1540	1024	2022-23	1488	816
Financial year	On Street (Roads)	Off Street (car parks)													
2020-21	614	523													
2021-22	1540	1024													
2022-23	1488	816													

<p>This information is vital for understanding how the change in enforcement powers has influenced parking compliance in the town centre ahead of significant local infrastructure changes.</p>			
<p>12. Over the last couple of years, you have been asked time and time again about when the Tree Management Policy is going to be reviewed. It should have been last year, and it didn't happen....</p> <p>We are now in the nesting season, which means any tree works will happen, few and far between.</p> <p>Please can I be provided a clear breakdown of all the work / maintenance that is going to take place from April 2026 - April 2027 on the District Council owned green spaces in: Deer Park, Ducklington and Curbridge. A meeting with an Officer about such work would also be useful.</p>	<p>Thomas Ashby</p>	<p>Lidia Arciszewska - Executive Member for Environment</p>	<p>The Tree Management Policy has now been updated and approved as a delegated decision on 16th March. The updated policy reinforces the key principles that the Council will follow for managing the trees it owns / has the responsibility to maintain. This includes ensuring the tree stock is managed in a way that balances risks and resources as well as ensuring landscape, amenity, ecological, environmental and historical benefits.</p> <p>We do not own any land in Curbridge or Ducklington. In respect of Deer Park, works to the line of trees on the residential side has been scheduled for October/November. This is predominantly reducing lime trees and clearance. No other major works for the wooded areas of Deer Park are scheduled at present but there are some provisionally planned works for the Deer Park recreational grounds and surrounding woodland. Ubico also carry out general grounds maintenance in the area to a schedule.</p>

			<p>Officers would be happy to meet with the Member to discuss the works planned.</p> <p>Any further queries can be directed to trees@westoxon.gov.uk.</p>
<p>13. Please can you state the plans for the over £300,000 in S106 money from the Spring Meadow development in Witney that is due to be spent by late this year? Witney Town Council sent some suggestions, so I would be keen to understand what options you are looking to explore.</p>	<p>Thomas Ashby</p>	<p>Alaric Smith - Executive Member for Finance</p>	<p>The plans for this funding will support two priority projects. The first focuses on improving the public realm at Marriotts Walk. Working with a landscape designer, we aim to reimagine and revitalise the large open areas to create a more welcoming and better-connected space. Enhancements such as new seating, high- quality planting and more attractive social areas will help improve pedestrian flow, strengthen the visitor experience and encourage people to spend more time in this part of the town centre.</p> <p>The second project is a comprehensive upgrade of Witney's wayfinding and signage. Much of the existing signage is dated or inaccurate and no longer reflects how people move around the town. By modernising and expanding the signage network, supported by additional REPF, we aim to improve navigation both within the town centre and at key entry points, including routes to destinations such as Cogges Farm. This will help visitors understand how close the town centre is and encourage greater footfall into local shops and attractions. We</p>

			<p>continue to work closely with Witney Town Council on projects and maintain a strong, constructive partnership throughout.</p> <p>The ideas Witney Town Council suggested did not fall within the geographical scope of the fund.</p>
14. Garden waste licenses - Please can you provide the figures for the number of licenses purchased in the 25/26 financial year?	Thomas Ashby	Lidia Arciszewska - Executive Member for Environment	<p>The number of Garden Waste licenses purchase in 25/26 was 31,679.</p> <p>The Council took the decision to freeze the license fees for Garden Waste for 2026-27; it is the lowest licence fee in Oxfordshire.</p>

Motion D: Bring Thames Water back into public ownership

Proposed by Councillor Early; Seconded by Councillor Arciszewska – altered by proposer*

Words added in red text

Words removed in ~~strikethrough~~ text

This Council notes:

- The Recent Channel 4 docudrama ‘Dirty Business’ was shown in February 2026 and featured pollution of rivers in West Oxfordshire.
- The River Windrush was polluted by sewage discharges from Burford Sewage Treatment Works (STW) for a total discharge duration of 338 hours in 2024, which equates to around 14 days. (Estimates based on Thames Water data, <https://top-of-the-poops.org/waterway/thames-water/river-windrush>; accessed 16 March 2026).
- Five STWs in the Evenlode catchment each discharged untreated sewage for over 2000 hours in 2024, which equates to more than 83 days. Data from Thames Water STW ‘Event Duration Monitors’ (<https://earthwatch.org.uk/wp-content/uploads/2025/06/Water-Quality-in-the-Evenlode-Catchment-2024.pdf>; accessed 16 March 2026).
- During a cross-party EFRA Committee hearing in September 2025, Emma Hardy (Parliamentary Under-Secretary of State for Water and Flooding in the Department for Environment, Food and Rural Affairs (Defra)) clarified the high threshold for special administration, stating: "If it comes to special administration... it's if a company can't perform its basic duty, so if your water doesn't come out your taps and your sewage isn't being taken away". Environment, Food and Rural Affairs Committee, Tuesday 9 September 2025.
- There was a serious interruption to water supply in the OX7 and OX29 postcodes due to a burst water main in March 2026 that caused severe water supply interruptions (low pressure or no water) for thousands of residents and businesses in Oxfordshire. (<https://www.bbc.co.uk/news/articles/cq6qp0146ggo>; accessed 16 March 2026).

This Council further notes:

- Raw sewage contains dangerous pathogens, including E. coli, hepatitis A, and parasites, which pose severe risks through direct contact or ingestion. Exposure causes gastrointestinal infections (vomiting, diarrhoea), skin/eye/ear infections, and respiratory issues. It is a major cause of waterborne diseases like cholera and dysentery.
- Thames Water are responsible for 72 billion litres of sewage discharged into rivers since 2020, with 2024 data indicating a 50% increase in raw effluent dumped.
- Thames Water have paid out £7.2bn to shareholders since 1989, including £158.3m in 2024.

This Council believes:

- **That the next step is to bring** Thames Water ~~should be brought~~ into a special administration regime (SAR) and then ~~back into~~ **some form of non-profit**, public ownership.

This Council resolves:

- To request that the Leader of the Council writes to the Prime Minister calling for Thames water to be brought into public ownership.

- To request that the letter to the Prime Minister also asks that in the meantime no dividends should be made to Thames Water Shareholders, nor bonuses to Thames Water Management until all rivers in the region meet all clean water standards.
 - To request that ~~the Overview and Scrutiny Committee regularly invites Thames Water to~~ report **on a quarterly basis to WODC** on how much raw sewage has been pumped into West Oxfordshire rivers and the progress towards preventing this.
-

**Council Procedure Rule 14.8 Alteration of Motion:*

With the consent of the seconder, and the Council, signified without discussion, a Member may alter: -

- *a motion of which they have given notice; or*
- *a motion which they have moved without notice; or*
- *an amendment to a motion they have moved.*

Only alterations which could be made as an amendment to the motion may be made.

Alteration to Motion E: Protecting precious habitats in West Oxfordshire

Proposed by Cllr Arciszewska, seconded by Cllr Pearson – altered by the proposer Cllr Arciszewska*

Additional wording shown in red text:

This Council notes:

- The UK is one of the most nature-depleted countries in the world; with only about 50% of its biodiversity remaining, it ranks in the bottom 10% globally. It is therefore of utmost importance that the remaining areas of high ecological value are preserved, as they may serve as nucleation sites for the wider nature recovery.
- This is also a matter of urgency. The new Planning and Infrastructure Bill has been created to fast-track the delivery of the government's ambition to build 1.5 million homes by the end of this parliament. This bill allows developers to meet their environmental obligations by making payments to the Nature Restoration Fund to promote nature restoration elsewhere.
- Environmental organisations and campaigners are deeply concerned that this new strategy will encourage developers to damage the environment locally and simply 'make up for it miles away'. According to legal analysis of the legislation, more than 5,000 of England's most sensitive and rare natural habitats are at high risk.
- SSSIs are areas of exceptional ecological or geological value that have legal protection. Their designation is one of the most important tools available for protecting the UK's most valuable habitats and species. Designation and management of SSSIs is one of Natural England's key statutory duties, which the Agency seems to be failing to fulfil. The rate of SSSI designations has slowed dramatically in recent years; the average time it takes to designate sites is getting longer. According to experts familiar with the matter, it takes up to 10 years to obtain an SSSI status. Moreover, it now appears that the Agency has suspended processing further designations altogether.
- We have some sites with extraordinary habitats, such as floodplain meadows and ancient woodlands in West Oxfordshire. They require legal protection. The Council has a legal duty to conserve and enhance biodiversity, and one of our priorities is to "create a better environment for people and wildlife".
- Given the rapid pace of housing development and the current shortcomings of the Natural England watchdog, the Council should stand up for the local environment and demand answers and actions from the Agency.

The council resolves to:

- Ask the Leader of the Council to write to Tony Juniper, the head of Natural England, to ask:
 - a) Why the SSSI designation process has been suspended
 - b) When the SSSI designation will be reinstated
 - c) Request that Natural England adopt a temporary approach to commenting on planning applications, which takes into account available local environmental

evidence to protect the sites that would otherwise have been designated as SSSIs if the designation process worked as intended.

d) Request that Natural England use this approach until the backlog in the SSSI designation is cleared.

- Send a copy of the letter to Emma Reynolds MP, the Secretary of State for Environment, Food and Rural Affairs (Defra),

**Council Procedure Rule 14.8 Alteration of Motion:*

With the consent of the seconder, and the Council, signified without discussion, a Member may alter: -

- *a motion of which they have given notice; or*
- *a motion which they have moved without notice; or*
- *an amendment to a motion they have moved.*

Only alterations which could be made as an amendment to the motion may be made.

Alterations to motion G: Policy into Action proposed by: Councillor Michael Brooker seconded by Councillor Ruth Smith – altered by seconder in consultation with proposer*

Additional wording shown in **red text**:

This council wishes to put policy into action. Our towns and roads have been kept waiting for implementation of decisions already made by Oxfordshire County Council, to the detriment of businesses and to residents' town centre experience and their travel and movement options across the District.

High Street

To revive our main town, we call on the County Council to prioritise work on Witney High Street, in close contact with traders and the Town and District Council, and start immediately to avoid works at key trading times. This includes the installation of the ANPR enforcement of the traffic restriction, that was approved months ago.

Footpaths

We also ask the County Council to begin work immediately on footpath resurfacing in West and East Witney as "walk and talk" minor works rather than expensive projects, with the more detailed items like lighting sorted out later.

Chipping Norton

We ask the County Council to deliver on its promise to reconfigure Alison St/London Road to help with school access. This is another agreed project that has been pushed down the list.

Potholes

In the same vein, we urge the County Council to spend the government pothole uplift straight away and devote some of the nearly £300 million capital hoarded from development, including in West Oxfordshire, on longer lasting resurfacing projects starting with the worst surfaces and busiest roads.

Council resolves that:

1. The Leader writes to the County Council to request immediate start to Witney High Street works and installation of ANPR, after unacceptable delay demoralising businesses and residents.
 2. The Leader writes to the County Council to demand immediate commencement of the stalled footpath works at East and West Witney.
 3. **The Leader writes to the County Council to ask for timely realisation of the Alison St/London Road project in Chipping Norton.**
 4. The Leader writes to the County Council to request that West Oxfordshire roads are scheduled for full resurfacing, using unspent funds, and that in the meantime West Oxfordshire potholes are repaired with the best methods available using the pothole uplift funding.
-

**Council Procedure Rule 14.8 Alteration of Motion:*

With the consent of the seconder, and the Council, signified without discussion, a Member may alter: -

- a motion of which they have given notice; or*
- a motion which they have moved without notice; or*
- an amendment to a motion they have moved.*

Only alterations which could be made as an amendment to the motion may be made.
