

6C: Appointments of Members to Outside Bodies

There may be occasion where members are appointed to outside bodies.

Where such appointments are made the member appointed is required to provide an annual written report to Council setting out the work undertaken by the organisation. The report may include items such as; the continuing benefit of personal representation, an analysis (not necessarily a financial assessment) of the achievements of the organisation, and its effectiveness in delivering the outcomes/outputs required by the Council.

This report should be submitted to Democratic Services in March each year and will be circulated to all members of the Council.

Any member may refer these reports, or issues raised by the reports, to the Overview and Scrutiny Committee if further consideration is felt necessary.
