Traffic counters were installed at the entrance and exit of the car park with a sensor counting when a car enters and leaves.

Guildenford Car Park Spaces:

- 161 Standard spaces

Morning Hours (0-5:00am)

The occupancy remains quite low across all days, fluctuating between empty to around 0.29% by 5am. This suggests that the car park has minimal usage in the early morning hours.

Middy (6:00am-12:00 noon)

Usages increase, from around 6am to 12:00noon. By 7am, occupancy ranges from 3% to 6%, and by 12 noon, the usage ranges from 19% - 100%.

By 5pm, occupancy falls substantially to around 10% to 52%.

We observe on average at least 4 cars parked in our car park overnight.

Late Night (7pm-11pm)

The car park sees a sharp drop in usage at night, falling to below 39% and below after 7pm

Overall Trend:

Weekdays: The busiest times are around 10am – 3pm, peaking between 40% and 100%.

Weekends: Saturdays and Sundays are significantly higher occupancy, often near occupancy or full, between 11am and 3pm

Car Parking Occupancy at Hensington Rd Car Park

Occupancy levels at Hensington Road car park in Woodstock are being obtained manually. A member of staff is obtaining the data by walking the car park and counting the number of occupied spaces. This car park is not suitable for an automatic counter due to the layout.

The observations of the car park are carried out over two consecutive weeks on a Monday, Wednesday, Thursday, Friday, and Saturday. This is followed by two weeks of no data being gathered and the process is repeated.

The first week is an early shift, with 5 sets of counts. Walk arounds are at regular intervals between 8am and 3.30pm. The second week is a later shift, with 5 sets of counts between 12.30pm and 8pm.

The number of occupied standard bays are counted along with occupancy of disabled and electric vehicle charging bays.

The Summit at Blenheim Palace from July 17-19, 2024, has led to road closures and increased police presence, affecting our survey on Hensington Road, Woodstock.

Hensington Road Car Park Spaces:

- 101 Standard spaces
- 4 Disabled spaces
- 12 Electrical vehicle charging bays

The available data shows that the car park has higher occupancy rates during the morning and early afternoon hours, especially on weekdays. The usage decreases significantly in the late afternoon and evening. Overall, Saturdays show higher percentages of occupied spaces throughout the day. There is also an apparent seasonal trend with lower occupancy in July.
