

Project Brief
Increase stay times at Marriotts Walk Car Park on levels 6, 7 and 8. By increasing the number of longer stay parking places at this location it may prevent vehicles circulating around Witney to find a spot.

Criteria	Score	Justification
Energy Use	0	There is no energy use related to this project
GHGs	4	There is no energy use related to this project. GHGs are not a concern for this project. GHGs are not a concern for this project.
Air quality	4	There is no energy use related to this project. Air quality is not a concern for this project. Air quality is not a concern for this project.
Land use change	0	There is no energy use related to this project. Land use change is not a concern for this project. Land use change is not a concern for this project.
Soil and waterway health	0	There is no energy use related to this project. Soil and waterway health is not a concern for this project. Soil and waterway health is not a concern for this project.
Waste	0	There is no energy use related to this project. Waste is not a concern for this project. Waste is not a concern for this project.
Sustainable Transport	0	This change will not affect on sustainable transport
Biodiversity	0	There is no energy use related to this project. Biodiversity is not a concern for this project. Biodiversity is not a concern for this project.
Climate Change Adaptation	0	There is no energy use related to this project. Climate Change Adaptation is not a concern for this project. Climate Change Adaptation is not a concern for this project.
Sustainable Materials	0	There is no energy use related to this project. Sustainable Materials is not a concern for this project. Sustainable Materials is not a concern for this project.
Food	0	There is no energy use related to this project. Food is not a concern for this project. Food is not a concern for this project.
Health	0	There is no energy use related to this project. Health is not a concern for this project. Health is not a concern for this project.
Housing	0	There is no energy use related to this project. Housing is not a concern for this project. Housing is not a concern for this project.
Education	0	There is no energy use related to this project. Education is not a concern for this project. Education is not a concern for this project.
Built Community	0	There is no energy use related to this project. Built Community is not a concern for this project. Built Community is not a concern for this project.
Cultural Community	0	There is no energy use related to this project. Cultural Community is not a concern for this project. Cultural Community is not a concern for this project.
Accessibility	0	There is no energy use related to this project. Accessibility is not a concern for this project. Accessibility is not a concern for this project.
Local Economy and Jobs	0	There is no energy use related to this project. Local Economy and Jobs is not a concern for this project. Local Economy and Jobs is not a concern for this project.
Safety	0	There is no energy use related to this project. Safety is not a concern for this project. Safety is not a concern for this project.
Democratic Voice	3	Any changes to the Off-Street Parking Order requires statutory and public consultation.
Equity	0	No impacts on groups with protected characteristics.

NB: You can filter the justifications by colour using the filter option on the 'score' column. For example, you can choose to only print red scores so that you can review them.
