Subject: Re: Licensing Panel - 9th August 2021 @ 0930am

Dear Andrea,

I wish to attend the hearing please as an interested party.

Please find attached documents to accompany my representation to the Licensing Committee. In relation to my asking that the licensing conditions include a measurable dB noise level limit and that the Noise Management Plan (NMP) lacks appropriate detail, I attach PDFs of:

- the "Licensing Act Pool of Conditions" from the WODC website (highlights added page 30)
- the planning conditions for Cineworld Cheltenham (see page 7 condition 27)
- the planning conditions for Cineworld Witney from the WODC website (highlights added page 6)
- NMP guidance from another LA (highlights added)

In relation to Cineworld's representation (in their NMP) that the acoustic doors "prevent the transmission or leakage of airborne sound" I have shared a 25 second MP4 video (via Google Drive at https://drive.google.com/file/d/115_zUoagGfXvS_IME3xcR1w92vPx5a6C/view?usp=sharing) that shows sound from the auditoria can leak from the acoustic doors. Would it be possible for the video to be shown to the Committee at the meeting please?

Michelle invited me to attend a committee meeting a long time ago so I could better understand how Licensing Committee meetings are conducted. At that meeting there didn't seem to be a time limit on how long the interested parties spoke. Is there a time limit, or polite length of time, that I will be allowed to speak for?

Thank you for your help and assistance.

Kind regards. James Nellist.
