Officer	David Ditchett
Officer Recommendations	Approve subject to Legal Agreement
Parish	Brize Norton Parish Council
Grid Reference	429494 E 207689 N
Committee Date	24th April 2023

Additional Comments Received

An updated comment from Thames Water has been submitted. This is available to view in the online case file <https://publicaccess.westoxon.gov.uk/online-applications/> and is copied below:

Waste Comments

Thames Water would advise that with regard to SURFACE WATER network infrastructure capacity, we would not have any objection to the above planning application, based on the information provided.

Thames Water would advise that with regard to FOUL WATER sewerage network infrastructure capacity, we would not have any objection to the above planning application, based on the information provided.

Water Comments

There are water mains crossing or close to your development. Thames Water do NOT permit the building over or construction within 3m of water mains. If you're planning significant works near our mains (within 3m) we'll need to check that your development doesn't reduce capacity, limit repair or maintenance activities during and after construction, or inhibit the services we provide in any other way. The applicant is advised to read our guide working near or diverting our pipes.

<https://www.thameswater.co.uk/developers/larger-scale-developments/planning-yourdevelopment/working-near-our-pipes>

On the basis of information provided, Thames Water would advise that with regard to water network infrastructure capacity, we would not have any objection to the above planning application. Thames Water recommend the following informative be attached to this planning permission. Thames Water will aim to provide customers with a minimum pressure of 10m head (approx 1 bar) and a flow rate of 9 litres/minute at the point where it leaves Thames Waters pipes. The developer should take account of this minimum pressure in the design of the proposed development.

A clean water modelling study for this development was completed in August 2022 and shows there is sufficient capacity. The developer must adhere to the information in the modelling report. The developer must contact Thames Water if there are any changes to this development, as we would consider this a material change and would need to be reconsulted.

Waste: Based on the information provided on the drainage strategy on enquiry 22/03539/FUL we have no objections

Additional Plans and Images Received

The applicant has submitted two additional drawings and three images. These are available to view in the online case file <https://publicaccess.westoxon.gov.uk/online-applications/>

They are the following:

- Colour presentation layout.
- A visual showing a view of the development from the proposed village green to the west.
- Photographs of completed houses on Phase 1 of the Brize Meadow development.

Report of Additional Representations

Application Number	23/00120/FUL
Site Address	17 Carmello Close Carterton Oxfordshire OX18 1DJ
Date	21/04/2023
Officer	Clare Anscombe
Officer Recommendations	Approve subject to conditions
Parish	Carterton Parish Council

Additional Consultee Comment

OCC Highways Officer

Oxfordshire County Council, as the Local Highways Authority, hereby notify the District Planning Authority that they ***do not object*** to the granting of planning permission

Additional Public Comments

2 additional support comments have been submitted. These are available to view in the online case file <https://publicaccess.westoxon.gov.uk/online-applications/> and are summarised below:

- This is a detached property with adequate insulation noise is not a problem
- Many clients walk to the property
- The gym provides a more accessible space for physical exercise than public gyms
